

**CONFIRMATION OF FINANCIAL RESOURCES  
and I-20 DATA for F-1 STATUS**

This is your statement of financial resources for education purposes. United States Immigration regulations require nonimmigrant International students to verify that they will have funds available to pay for their educational, living and other expenses. The Immigration Service will not permit an International student on a student visa to work off-campus except in very rare circumstances. On-campus employment, can only *supplement*, not substitute for personal funding.

The estimated educational and living expenses for an International student in the Graduate School of Management **for a year of study** are \$33,350. **To calculate the total cost of your program, you must multiply the yearly estimate by the length of your program.** This estimate is based on housing costs for a single student who shares expenses with a roommate, and does not include travel costs to and from the student's home country or dependent expenses.
